The Holt Heritage Tour to China can be both exciting and challenging. It will undoubtedly be one of the most profound experiences in your life. You may encounter things that you may only have imagined: Aspects of another culture, a connection to a heritage you might not know much about, and new feelings you might not have expected. On this trip you will probably experience a wide range of emotions, from tremendous joy to sadness, as a result of feelings of loss. Some days can be physically and/or emotionally strenuous, with long bus rides and walks, and very hot, humid, and at times rainy weather. Food will be different from what you have experienced in the USA. Please understand that though you may have special dietary requirements, you may not always get what you want. The most important thing is to be flexible and keep an open mind. You will be a guest in a foreign country, and the rules at home may not apply. The following questions will help us get to know you better, and help you think about how you will handle these new and exciting experiences. You are welcome to use additional pages.

Please share your hopes and expectations for your trip to China.

Have you ever traveled to a foreign country? What was it like for you?

Describe a loss or a difficult situation you have experienced in your life, and how you handled it.
